SUBJECT INDEX

Aflatoxin poisoning
proper food care and awareness essential, 526.

AIDS
defrauding the desparate quackery, 252.
fast-tracking the first AIDS drug, 183.
progress on research report, 127.

Campylobacter je juni
turkey, roll, 563.

Dairy
buttermilk in production of yoghurt cheese "Labneh", 300.
comparison of two stains for use in making microscopic somatic cell counts, 52.
dairy processing plants, practical environmental sampling, 521.
goat meat and milk production in Kenya using computer simulations, 126.
guidelines for controling environmental contamination, 52.
HACCP in ice cream plants, 131.
infra-red instruments used in analysis of raw milk component, 58.
milk quality surveys in California in 1974 & 1984, 404.
milk sampling device, 11.
milkfat using sampling of milk and infra-red analysis of milkfat, 179.
national mastitis council, 14, 149, 213, 291, 388, 434, 474, 544, 638.

Dairy Microbiology
antibiotic resistant bacteria, 560.
microorganisms isolated from sweet water and glycol cooling, 559.
systems in dairy plants, 559.
salmonella in raw milk, 559.
salmonella spp. from nonfat dry milk, 560.

Dairy Product Protection
proposition 65 and its effect on the dairy and food industry, 557.

Dairy Production Sanitation
cheese-substitute from soymilk and soymilk-bovine milk mixture, 561.
evaluation of milk component analysis, 560.
evaluation of raw milk quality, 560.
microbiological contamination of conveyor lubricants, 561.
pasteurization of milk for cheese making, 561.
residue in milk by HPLC-UV and GC-MS, 561.
salt transfer during brining of feta cheese, 561.

Environmental Protection
hot tubs and health concerns, 567.
waste effluents, 567.

FDA
role as a public health educator, 462.

Food
(see food production)
rapid methods and automation in the microbiological examination, 292.
turkeys, stuffed slow-roasted, 344.

Food Hazard
invisible villains, 662.

Food Microbiology
Aeromonas Hydrophila, Vibrio parahaemolyticus and *Staphylococcus aureus* in the cooked state, 564.
Campylobacter jejuni in turkey roll, 563.
enumeration of stressed *Salmonella,* 563.
L. monocytogenes and *Aeromonas hydrophila* on fresh broccoli, 563.

thermal processing of food, 565.

Food Safety
mother nature's regulations, 352.
perspective on concerns, 112.
proper care and awareness to reduce aflatoxin poisoning, 526.
questions answered by summertime hotline, 419.

Foodservice
managing a sanitary and safe operation, 410.

Foodservice Sanitation
food safety practices in N.Y. state soup kitchens, 562.
food service inspections, 562.

Giardiasis
associated with a mains water supply, 459.

Hazard Analysis and Critical Control Point
concept, 568.
identification in ice cream plants, 131.
in convenience stores, 564.
retail and restaurant operations, 568.
retail food store deli, 565.
safety of ethnic foods, 654.
